

Linen Me.  
*Design your home with linen*

Hi,

My name is Inga Lukauskiene, and I am a Lithuanian-born interior designer.

I have a real passion for textiles, particularly linen. I love absolutely everything about it: its strength, coarseness, and durability; the way it ages beautifully, and - I have to admit - even its tendency to crease.

Lithuania has strong traditions of flax growing and linen production, and I have always felt that more could be done to represent the beauty of Lithuanian linen and fine craftsmanship.

With this idea in mind, I graduated from London's KLC School of Design, and decided to focus on creating beautiful home accessories from linen.

I am introducing my luxurious yet affordable linen brand, LinenMe, and I hope you enjoy exploring my collections of home textiles.

Sincerely yours,

Inga

## *A short history of LinenMe*

---

Linen production is a cherished family tradition with some members of Inga's family having worked in the industry for over 30 years. The family takes great pride in keeping old linen production traditions alive.

---

Inga Lukauskiene has been involved in the linen production process from the very beginning. It always struck her that no matter how high the quality of Lithuanian linen was, it would still bear the name of some foreign brand. A tiny mention in the tag "Made in Lithuania" was no longer enough.

LinenMe, an independent Lithuanian linen brand, was launched in 2007, offering an array of luxurious handmade Lithuanian linen.

In November 2007, the online shop [LinenMe.com](https://www.linenme.com) was officially opened, and LinenMe products became widely available to the global market.

The LinenMe brand has been going from strength to strength, delivering luxurious Lithuanian linens to buyers in nearly 50 countries. Purchasing unique Lithuanian linen has never been easier.

## *LinenMe at Merchandise Mart*

## *LinenMe - luxury you can afford*

---

LinenMe is a small yet rapidly growing business that trades exclusively online, making it an easy, accessible and cost-effective way of shopping. Our main focus is ensuring that each and every luxurious item available from our shop, or made bespoke for you, is also affordable.

---

This is how we do it, in 3 simple steps:

### *Design*

All our product designs are inspired by our customers, and then carefully selected by our in-house designer, Inga Lukauskiene, a recent graduate of KLC School of Design in London. Her family has worked in the flax industry for over 30 years, and currently owns a linen manufacturing unit.

### *Manufacturing*

We have our own manufacturing unit in Lithuania, with more than 30 years of linen production experience and flexibility at lower cost. The linen production facility uses each and every inch of fabric, with hardly anything going to waste.

### *Marketing*

We try to avoid all the marketing gimmicks that are ineffective and increase the final value of the product. Staying away from all the unnecessary and costly marketing actions, we stick to the basics, and are proud to be in the position to offer luxurious and affordable linen every day.

## Bed linen

Discover the exquisite beauty of fine Lithuanian linen, full of sensual texture and style. The LinenMe range of luxurious linen bedding will please both traditional and contemporary tastes.

Over centuries, in many cultures worldwide, one of the most important heirlooms a loving mother could give to her daughter on her wedding day was linen passed on to her from previous generations. Quality linen was the tie that bound generations, thanks to its time-enhanced beauty and durability.

Pure linen is one of the most suitable fabrics to use for luxurious bedding production as linen fiber is hollow at the core, and thus provides excellent insulation. It works wonders in both hot and cold seasons, keeping you cool in summer and warm in winter. In hot weather, pure linen absorbs moisture and excessive body heat, improving the quality of sleep and rest.

Linen has excellent anti-static, anti-allergic and natural PH-balanced qualities that any other fabric struggles to match. The temperature-regulating properties of linen create the soothing feeling of comfort, making linen sheets pleasant to the touch, and giving a great sense of relaxation.

### The LinenMe luxury bed linen range includes:

- Sheets and sheet sets
- Duvet covers
- Pillow covers
- Bedding sets

## Table linen

LinenMe creates luxury table linen for both formal and casual dining, offering a wide range of designs. From classic plain white tablecloths, to funky stripe table runners and vibrant colourful napkins, we have lots of different sizes and colours available.

Luxurious linen tablecloths can be passed down to future generations as a family heirloom, perhaps as a gift given to daughters on their wedding day, or they can be used on special family occasions for decades to come.

Moreover, by choosing pure linen tablecloths, napkins and placemats, you are making a long term investment, as they do not tend to wear and tear easily. The more times you wash your table linen, the softer it feels.

LinenMe table linen blends a contemporary look with timeless luxury and simple elegance.

## Bathroom linen

We are extremely proud of the LinenMe range of huckaback towels and bathroom accessories for a number of reasons.

A huckback weaving pattern, also known as huggabag, huck-a-back, huckabag or simply huck, is an old weave that is still used for towels even today. The name 'huckaback' may have been adapted from 'hucksters', known from around 1200.

The huckaback pattern produces a specific uneven surface, which allows towels to absorb water better and dry quicker.

Linen bath towels have a good grip, are sturdy and extremely absorbent. They dry the skin very effectively; towel-drying your skin with a pure linen towel also stimulates the blood supply leaving you revitalised and fresh.

Pure linen towels won't take up as much space in your wardrobe as conventional cotton towels. They are also perfect for the spa or the beach, and are durable, lightweight and environmentally friendly.

LinenMe has a selection of luxurious bath towels on offer in several colours and sizes.

### Accessorize your bathroom with these LinenMe essentials:

- Towels (large towels, guest towels, hand towels)
- Terry accessories (facial pads, shower gloves, back scrubbers)
- Linen baskets and bags
- Other Spa accessories

## Wool Throws

Linen is not the only fiber that LinenMe cares about. We are in the process of sourcing new products from other small independent manufacturers that specialise in natural materials such as wool, silk, cotton, and even ceramics or glass.

Wool products were among the first new exciting items that were added to LinenMe range in 2009. LinenMe offers several types of wool throws and blankets; from classic plain throws, to patterned and striped designs, there is a product to suit any taste.

Most of the throws are suitable for using both indoors and outdoors, such as when you are having a late night barbeque in your garden, or simply enjoying a glass of wine on the balcony.

Some of the throws are made of pure merino wool, and others use various blends of wool – such as alpaca, lambs wool, camel and merino – so there's plenty of luxury and warmth woven into each throw.

The best thing about wool throws is that they can serve you a lifetime; they remain light and soft for years, and can also be used purely for interior decoration.

You can find full assortment of woolen products at [www.woolme.com](http://www.woolme.com)
